BHEL SBD Herewith Publishes

Expression of Interest

(EOI)

and

**Invites Prospective vendors to partner with BHEL for MESH SPOOL required
in SCR (Selective Catalyst Reduction)**

Ref: BHEL/SBD/SCR/EOI/MSPOOL Dated 05.09.2023

Due Date of Receiving duly filled EOI: 26.09.2023 14:00 Hrs

About BHEL

BHEL is India's largest engineering and manufacturing enterprise, operating in the energy, industry and infrastructure sector. Company was established in the year 1964 and since then it has been "Making in India" offering comprehensive products, systems, and services in various areas including power generation (thermal, hydro, gas, nuclear, and solar PV), transmission, transportation, defence, aerospace, oil and gas, and emerging sectors like battery energy storage systems and electric vehicle chargers. BHEL has been instrumental in developing the country's power generation capacity, contributing to core industrial and strategic sectors since the time of its humble beginning. The company's commitment toward its customer is evident through wide range of product portfolio, development and absorption of new technologies, consistent investment of more than 2.5% of its revenue on R&D and innovation, establishment of world-class manufacturing facilities and offering sustainable business solutions. Apart from serving customers, BHEL has been supporting communities through programs like skill development, promoting health, hygiene, education, cleanliness and environmental protection, thus contributing to the society as a whole.

Solar Business Division (SBD) of BHEL, situated in Bangalore, India has the state-of-the-art facility for manufacturing of SCR. SCR catalyst manufacturing facility at its SBD unit caters to NOx abatement in thermal power stations. Recognising the long-term severe effects of NOx and in consideration of the Ministry of Environment and Forest's notification.

Power Sector

BHEL is one of the few companies in the world having the capability to manufacture the equipment for entire range of power plants - thermal, gas, hydro and nuclear, with proven capabilities to execute large size projects. BHEL's offering include:

- Steam turbines, generators, boilers and matching auxiliaries for fossil-fuel applications up to 1000 MW unit size
- Emission control equipment including Flue Gas Desulphurisation systems for SOx emission control, high efficiency Electrostatic Precipitators for particulate emission control, and Boiler modification and Selective Catalytic Reduction systems for NOx emission control

- Gas turbines and generators up to 299 MW unit size
- Hydro turbines and generators up to 400 MW unit size
- 220/235/500/540/700 MW nuclear turbine generator sets
- Plant performance improvement through renovation, modernization, flexibilization, uprating, residual life assessment, health diagnostics and life extension of plants

Contribution to Environment

BHEL is contributing to a greener environment through development of environment friendly technologies and improvement in efficiency of equipment. Continuous improvement in power cycle efficiency and reduced emissions from coal-based power plants have been achieved over the time by evolution of technology from sub-critical to supercritical. Attributes of BHEL supplied power plant equipment such as lower auxiliary power consumption, higher plant efficiency, lower design heat rate and higher operating availability help in attaining lower life cycle cost. BHEL provides comprehensive solutions for reducing emissions through supply and commissioning of Flue-gas Desulphurization (FGD) systems, Selective Catalytic Reduction (SCR) systems, Solar Photovoltaic plants, Electrostatic Precipitators (ESP). BHEL has developed fully indigenous Pressurized Fluidized Bed Gasification (PFBG) technology for generating syngas from high ash Indian Coal. The syngas further acts as a feed for production of industrial chemicals. There is also conscious effort towards reduction of embodied carbon in products. Company has opted to replace polluting fuels with cleaner ones, e.g., gas is now used as a source of heat energy (instead of coal earlier) during production of products like ceralin, and has also converted furnaces to RLNG from LPG at its manufacturing plants.

SCR (Selective Catalyst Reduction) Systems

Fossil fuels have been main source for energy in terms of combustion, where chemical energy in fuels is converted into thermal and mechanical energies. In this process emissions are by products. Emission of oxides of nitrogen from combustion and high temperature industrial processes continue to be a major environmental concern. Nitrogen oxides, collectively termed as NO_x, are formed either from fixation of N₂ in the combustion air at high temperatures or from oxidation of nitrogen chemically bound in the fuel. Largely all combustion processes lead to formation of NO_x, emitted mostly as nitric oxide (NO) with smaller amounts of nitrogen dioxide (NO₂).

Government of India revised the environmental norms on 7th December 2015 for various pollutants from thermal power plants. As per the revised environmental norms, power plants installed after 2016 will be required to limit NO_x emission below 100 mg/Nm³. Presently, Selective Catalytic Reduction (SCR) is the preferred technology for controlling NO_x emissions from coal-fired power plants, particularly when high levels of reduction (i.e. 80 – 90%) are required. In order to comply with the new environmental norms, SCR system is required to be installed in all thermal power plants which will go into operation from 2017.

Ministry of Environment and Forest (MoEF), Gol through a gazette notification dt. Dec. 8, 2015 specified the permissible limits of NO_x emission for thermal power plants.

The notification specifies different permissible levels depending upon date of commissioning of thermal power plants and the limits are as below:

Thermal Power Plant Installation Period	NOx Emission Levels as per MoEF Norms
Installed by 31.12.2003	600 mg/Nm ³
Installed from 01.01.2004 to 31.12.2016	300mg/Nm ³
Installed from 01.01.2017	100mg/Nm ³

To keep the NOx level below 100mg/Nm³, Selective Catalytic Reduction (SCR) is technically suitable and widely accepted technology.

Catalyst is an integral part of SCR system and plays a vital role in reducing the NOx contents.

In an SCR system, vaporized ammonia (NH₃) is injected into the flue-gas stream at about 300 - 400°C, which is then passed over a catalyst. The catalyst promotes reactions between NOx and NH₃ and reduces the NOx formed during combustion into molecular nitrogen and water vapour. Since this temperature is normally the flue gas temperature at the outlet of the economizer, the SCR system is typically installed after the boiler second pass and before the air preheater. Two predominant styles of catalyst are used in SCRs - honeycomb and plate type. The reactions are as follows:

Plate type technology utilizes catalyst plates manufactured with active catalyst ingredients on a titanium dioxide matrix supported on a stainless-steel mesh substrate. Multiple catalyst plate elements are then assembled in a steel box and these catalyst units are then assembled into a welded steel frame (cage) to form a catalyst module.

The purpose of publishing this EOI is to provide opportunities to probable vendors who can partner with BHEL for supply of various materials required for SCR systems.

Note: BHEL reserves its right to independently verify the documents submitted and visit the vendor works for assessment. Necessary arrangements shall be made by the prospective vendors

Material against which EOI is sought is as below:

SI No	ITEM DESCRIPTION	DRAWING/TECHNICAL SPEC.	ANNUAL REQ. (APPROX)	UNIT
1	MESH SPOOL	EL-DG-1-985-03-02-005	65	NOS

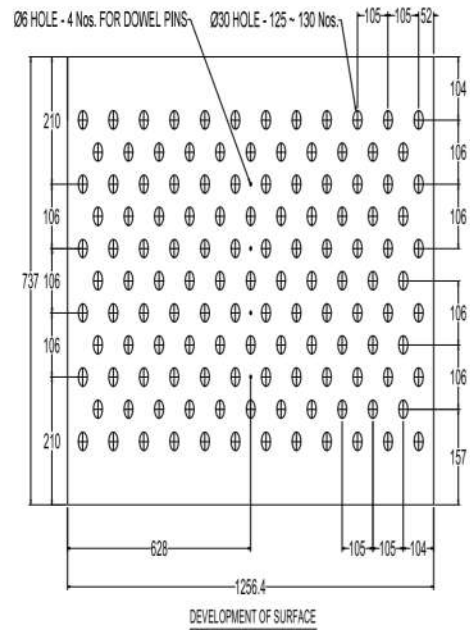

The vendors meeting the Pre-Qualification Requirement as per BHEL shall submit the necessary documents for fulfilling the criteria. BHEL reserves the right to independently verify these claims and visit the Bidder's. The bidder may visit BHEL and acquire full knowledge & information about conditions prevailing at plant and in & around the plant premises together with all the statutory, obligatory, mandatory requirements of various authorities before submission of the offer.

COPYRIGHT AND CONFIDENTIAL INFORMATION ON THIS DOCUMENT IS THE PROPERTY OF BHARAT HEAVY ELECTRICALS LTD. IT MUST NOT BE USED DIRECTLY OR INDIRECTLY IN ANY WAY DETRIMENTAL TO THE INTEREST OF THE COMPANY.

**TECHNICAL PRE-QUALIFICATION REQUIREMENT (TECHNICAL PQR)
EXPRESSION OF INTEREST
MATERIAL DESCRIPTION: MESH SPOOL**

Sl No	Parameter	Requirement	Supporting document
1	Vendor should be a fabricator of MS/ SS components.	Bidder shall enclose details of Manufacturing Plant location: (Name of original manufacturer, complete address & contact details). Bidder to attach copy of Business License/Udhyam certificate.	(Attached / Not-attached) <input type="checkbox"/> / <input type="checkbox"/> (please tick at appropriate place)
2	Experience of Fabrication	The bidder should be a manufacture/ fabricator and should have minimum 5 years of experience in supply of fabricated SS/MS items of minimum 50 kg weight. The bidder shall attach supporting documents like Purchase orders of supply of minimum 6 MT for BHEL or any other customer in last 5 years.	(Attached / Not-attached) <input type="checkbox"/> / <input type="checkbox"/> • (please tick at appropriate place)

BHEL SHALL INDEPENDENTLY VERIFY CLAIMS MADE FOR CONFORMANCE TO THE PRE-QUALIFICATION CRITERION. BIDDERS TO ENSURE PROVIDING AUTHENTIC CERTIFICATES / DOCUMENTATION AND CREDENTIALS IN ORDER TO QUALIFY FOR BHEL TENDER PROCESS. BIDS SUBMITTED WITH MISLEADING/ FALSE INFORMATION SHALL BE REJECTED SUMMARILY.

Seal and signature of the Bidder

Queries:

Bidders to note that any queries related with EOI are to be submitted online only at Email ID provided in Table A with CC to **k.manoj@bhel.in**. Queries/clarifications received in any other form are liable to be unanswered. A reply from the concerned will be given on the same Email ID.

Table A

Description	Email Id
For Technical Queries	chetanbhawsar@bhel.in
For General & Commercial Queries	rahul.k@bhel.in
For submission of offers against EOI	technicalbid-epd@bhel.in

Submission of EOI

Offers against EOI to be submitted on Email address to **technicalbid-epd@bhel.in** with subject as Ref: **BHEL/SBD/SCR/EOI/MSPOOL Dated 05.09.2023 "Item description against which EOI is submitted"**

Following documents to be attached while submitting EOI:

1. Annexure I (Duly filled, signed, stamped on official letterhead)
2. Annexure II- Non-Disclosure Agreement (Duly filled, signed, stamped on official letterhead)
3. Documents in support of Pre-Qualification Requirements- Technical
4. Technical offer, comprising of technical specification/Product Catalogues/Datasheets/Drawings/ QAP/ Test report etc
5. Documentary evidences for Manufacturing capabilities
6. Any other documents

Note: No physical offers for EOI will be accepted.

ANNEXURE – I

FORMAT FOR SUBMISSION OF EOI

(to be printed on the official letterhead of the APPLICANT)

To,

Mr.A K Nived Kumar
AGM-Materials Management
BHEL SBD Bengaluru-560012

Dear Sir,

Subject: Submission of Expression of Interest Ref: BHEL/SBD/SCR/EOI/MSPOOL Dated 05.09.2023
“Item description against which EOI is submitted”

With reference to your EOI inviting notice Ref: BHEL/SBD/SCR/EOI/MSPOOL Dated 05.09.2023 and after examining the detailed documents and other details mentioned in the EOI document, I/We hereby offer to submit my /our Expression of Interest.

1. All the annexures and documents necessary in this connection are enclosed hereto. All the documents/ photocopies of the documents have been self-attested by me/us and BHEL is free to reject our offer if any of the documents/photocopies of the documents is/are found to be false or forged.
2. I/we, hereby also declare(s) that I/we have read all terms and conditions in the EOI and all terms and conditions mentioned in the EOI are acceptable. I herewith submit duly signed and accepted Non Disclosure Agreement as per Annexure II.
3. I/we, hereby also declare(s) that my/our organisation/firm is not debarred/ blacklisted by any Central/State Govt. department, agency, PSUs/ Institution/ Agencies/ Autonomous organization.
4. The information sought from me as per the EOI notice is enclosed to this letter.

Yours Faithfully,

(Signature & Stamp of Authorised Signatory)

ANNEXURE II

NON-DISCLOSURE AGREEMENT

I, _____, on behalf of the _____ (Name of Company),

acknowledge that the information received or generated, directly or indirectly, while working with BHEL on contract is confidential and that the nature of the business of the BHEL is such that the following conditions are reasonable, and therefore:

I warrant and agree as follows:

I, or any other personnel employed or engaged by our company, agree not to disclose, directly or indirectly, any information related to the BHEL Without restricting the generality of the foregoing, it is agreed that we will not disclose such information consisting but not necessarily limited to:

- Technical information: Methods, drawings, processes, formulae, compositions, systems, techniques, inventions, computer programs/data/configuration and research projects.
- Business information: Customer lists, project schedules, pricing data, estimates, financial or marketing data,

On conclusion of contract, I, or any other personnel employed or engaged by our company shall return to BHEL all documents and property of BHEL including: drawings, blueprints, reports, manuals, computer programs/data/configuration, and all other materials and all copies thereof relating in any way to BHEL, EPD's business, or in any way obtained by me during the course of contract. I further agree that I, or any others employed or engaged by our company shall not retain copies, notes or abstracts of the foregoing.

This obligation of confidence shall continue after the conclusion of the contract also.

I acknowledge that the aforesaid restrictions are necessary and fundamental to the business of the BHEL and are reasonable given the nature of the business carried on by the BHEL. I agree that this agreement shall be governed by and construed in accordance with the laws of country.

I enter into this agreement totally voluntarily, with full knowledge of its meaning, and without duress.
