2. Global Fintech Fest (GFF) has established itself as the world’s largest fintech gathering, convening thought leaders, central bankers, fintech innovators, and policymakers from over 100 countries. The Global Fintech Fest (GFF) began its journey in 2020, in the middle of the global pandemic. What started as a fully virtual event to bring together fintech leaders and policymakers during a time of crisis, quickly evolved into the world’s most influential platform for fintech dialogue and innovation.

3. The first two editions were hosted virtually, laying a strong digital foundation and reaching stakeholders across geographies. As the world reopened, the GFF transitioned to its physical format in Mumbai, India’s financial capital. Since then, the event has grown exponentially in scale, stature, and impact, becoming the centrepiece of fintech in India and a beacon for the global community.

4. In 2024, the GFF achieved a historic milestone when the Hon’ble Prime Minister of India, Shri Narendra Modi, delivered his landmark address, elevating the festival’s global stature and re-emphasizing India’s leadership in digital finance and fintech innovation.

5. Tracks at GFF 2025

- FinTech Innovation: Showcasing breakthrough technologies and disruptive financial solutions driving the next wave of fintech evolution.
